

Yvonne Lee-Hawkins
Personal Statement

My name is Yvonne Lee-Hawkins. I was raised in Gibsonville NC and moved to Greensboro my senior year of high school.

My experience with Deep Root began in 1996 when I moved back to Greensboro after living in several states while married to a member of the U.S.C.G. Deep Roots provided and provides me with alternative products for health and nutrition not found in conventional stores. I am glad I became an owner in 2009.

Since the relocation from Spring Garden Street to Eugene Street, I participate more with the market and I have been serving on the Board since April of 2016. My participation has involved, taking grocery bags purchased by our customers to the shelters here in the city, helping at the table to sign up potential new owner's, donated time and the money earned to Deep Roots, by setting up in the Community Room and performing Reflexology hand and arm massages.

With our continued support, Deep Roots will continue to grow and thrive through educating individuals about healthy options, products, and resources, and giving local businesses the opportunity to sell their quality products.

I enjoy working on the Board of Directors for Deep Roots, along with individuals who believe in providing the best community support, quality goods, services, and education. I believe we are our brother's and sister's keeper.
